proposed 50% rate increase on the above referenced individual long term care insurance product.

The rate increase applies to the base policy and all applicable benefit riders for which a premium is paid. The rate increase will be effective on the first premium due date subsequent to state insurance department approval and in accordance with state policyholder notification requirements, with the additional condition that no policyholder will receive a rate increase sooner than one year after receiving a prior rate increase, if applicable.

This filing applies to in-force policies issued in this state. The above referenced policy forms are individual long-term care insurance products, which are no longer being sold.

Enclosed are any necessary certifications, transmittals and/or filing fees as may be required by your state.

Submitted Date 11/02/2009
Respond By Date 11/27/2009

Dear Megan Jones,

The additional information furnished in Mr. Timmerberg's letter of October 28 has been reviewed and we are willing to approve a 15% increase.

Because of the size and frequency of past increases we would ask that you allow the policyholders the option to reduce/change their coverage if the 15% increase is implemented.

If our offer of 15% is not accepted, the filing will be disapproved.

Please feel free to contact me if you have questions.

Sincerely,

Marie Bennett

Little Rock, Arkansas 72201

**RE: Continental General Insurance Company
SERFF Tracking Number UTAC-126236275;
Rate Revision Filing on Individual Long Term Care Insurance
Policy Forms: 440 et al.**

Dear Harris Shearer:

Thank you for your correspondence via SERFF on 10/23/2009 regarding the rate revision filing for the above referenced policy forms.

Prior to addressing your correspondence, we would like to provide the following additional information:

Please see the attached **Exhibit A**. In this "Historical Cash Flow Analysis" we inspect past profitability of these policies from a cash flow perspective in order to directly address any concern that profits from these policies may have been available at some point in the past, but not appropriately assigned to the liabilities accumulating for these policies. From **Exhibit A**, we see Net Cash Flows accumulated at 5% of \$32.9 million. These cash flows were inadequate to fund the active life reserve balance of \$33.3 million. That is, this Exhibit demonstrates a historical shortfall of \$0.4 million, which is prior to the projected future shortfall for funding future claims and expenses of these policies of approximately \$75.2 million, as described in Section III of the Actuarial Memorandum.

Details on the information supplied in **Exhibit A** are as follows:

- Column A: Earned Premium - The historical Earned Premium is the same as presented in the Exhibit 2 accompanying the Actuarial Memorandum.
- Column B: Premium Tax - Premium Tax is 2.5% of Earned Premium.
- Column C: Commissions - Historical Commissions are calculated by applying the first year and renewal commission rates to the Earned Premium at the original premium rate level for duration 1 and durations 2+, respectively.
- Column D: Incurred Claims - The historical Incurred Claims are the same as presented in the Exhibit 2 accompanying the Actuarial Memorandum.
- Column E: Claim Payment Expenses - Claim Payment Expenses are 5.0% of Incurred Claims.
- Column F: Maintenance Expenses - Maintenance Expenses are set equal to General Expenses less Claim Payment Expenses.

- Column G: General Expenses – General Expenses are estimated based on the Company's Annual Statements.
- Column H: General Expenses as a percentage of Earned Premium – The average General Expense percentage from the Company's 2004-2006 Annual Statements is used for 1997-2003.
- Column I: Net Cash Flow – The Net Cash Flow is equal to Earned Premium less Premium Tax, Commissions, Incurred Claims, and General Expenses. That is,

Net Cash Flow = Earned Premium – (Premium Tax + Commissions + Incurred Claims + General Expenses)

- Column J: Addition to Active Life Reserves – The yearly Addition to Active Life Reserves prior to 2006 are estimated by uniformly distributing the year-end 2005 Active Life Reserves from 1998-2005, and discounting each year's value back at 5%. Subsequent additions to Active Life Reserves are based on Company records. All additions are assumed to occur at the middle of the calendar year.

Similarly, **Exhibit B** displays a historical cash flow analysis, but uses Commissions that are 80% of those from **Exhibit A** and General Expenses that are 80% of those estimated from the Company's Annual Statements. With the lower expense assumptions of **Exhibit B**, a \$5.6 million surplus would have resulted as of 12/31/2008, after the funding of the Active Life Reserves. Even with these more aggressive expense assumptions, historical cash flows were inadequate to fund the projected future shortfall for funding future claims and expenses of these policies of approximately \$75.2 million.

This methodology directly addresses the concern that profits from these policies may have been available at some point in the past, but not appropriately assigned to the liabilities accumulating for these policies.

We proceed to address your correspondence.

The Department will only consider a 10% rate increase on the base plans and riders. If you wish to accept this offer please attach amended rate sheets.

Thank you for your counteroffer of a 10% rate increase on these policy forms. We cannot accept your counteroffer at this time. Please consider the following additional information.

Potential Burden on Arkansas Policyholders: We understand the State's desire to limit the hardship policyholders experience as a result of the rate increases necessary to mitigate the rate inadequacy on these forms. However, we urge you to consider the negative impact on policyholders when a necessary rate increase is delayed. If a necessary premium rate increase is disapproved or delayed, this results in the need for a larger cumulative premium rate increase for policyholders active at the time of the final rate increase. As detailed in the Actuarial Memorandum, we are currently projecting approximately a 143% premium rate increase is necessary for Arkansas. However, the Company is willing to accept a 50% rate increase now, breaking the full necessary rate increase into smaller, more manageable rate increases for the policyholders. The necessary Arkansas future rate increases are currently projected as follows:

50% now, 50% in April 2011, and 16% in July 2012. In contrast, it would take a series of twenty 10% increases to cover the gap in funding of future claims and expenses detailed in the Actuarial Memorandum.

For a policyholder with the average Arkansas annualized premium of \$2,015 at 12/31/08, the future premium rates are as follows:

Implementing	Future Cumulative Rate Increase	Annualized Premium as of: 12/31/08	Annualized Premium After Final Increase
50% Rate Increases	162%	\$1,818	\$4,758
10% Rate Increases	673%	\$1,818	\$14,049
Difference:			\$9,290

As shown in the table above, implementing 10% rate increases instead of 50% rate increases would result in higher premium rate levels for policyholders active at the time of the final rate increase. **In summary, implementing a 10% rate increase instead of the requested 50% rate increase would increase the ultimate burden on Arkansas policyholders who are active at the time of the final rate increase.**

Shock Lapse / Non-Forfeiture Offer: The Company would like to reemphasize that with approval of the requested rate revisions, all policyholders will be given the option to accept a non-forfeiture benefit. Upon acceptance of this offer, the policyholder's current coverage is terminated. Acceptance of the non-forfeiture benefit will provide the policyholder with a paid-up policy, with no future premiums required. Under this paid-up policy, the maximum benefit amount is equal to the greater of the sum of premiums paid or 30 times their daily benefit, and the daily benefit amount is equal to the policyholder's current daily benefit amount.

Optional Policyholder offers to Reduce Benefits: In addition, the Company will give policyholders Benefit Reduction Offers to help mitigate the impact to policyholders of the premium rate increase on the Base policy. The Benefit Reduction Offers will allow the policyholder to:

1. Lower their lifetime maximum benefit,
2. Lower their daily benefit,
3. Increase their elimination period, or
4. Drop their inflation rider (for those that have some type of inflation rider).

In light of this information, please consider our request for a 50% premium rate increase for Policy Forms 440 et al. Thank you for reviewing the information provided herein; if you have additional questions, please feel free to call me at (317) 507-9774.

Sincerely,

A handwritten signature in black ink, appearing to read "John Timmerberg". The signature is fluid and cursive, with a large loop at the end of the last name.

State Tracking Number: 43375
Rate Revision Filing on Individual Long Term Care Insurance
Policy Forms: 440 et al.

Dear Ms. Bennett:

Thank you for your correspondence via SERFF on November 2, 2009.

“The additional information furnished in Mr. Timmerberg’s letter of October 28 has been reviewed and we are willing to approve a 15% increase.

Because of the size and frequency of past increases we would ask that you allow the policyholders the option to reduce/change their coverage if the 15% increase is implemented.”

While we firmly believe that the requested 50% premium rate increase is actuarially justified, we will accept your counter-offer of a 15% premium rate increase. Revised Rate Sheets are attached.

The Company will give policyholders Benefit Reduction Offers to help mitigate the impact to policyholders of the premium rate increase. The Benefit Reduction Offers will allow the policyholder to:

1. Lower their lifetime maximum benefit,
2. Lower their daily benefit,
3. Increase their elimination period, or
4. Drop their inflation rider (for those that have some type of inflation rider).

Timmerberg & Associates, Inc.

If you have additional questions, please feel free to call me at 317-566-7559.

Sincerely,

A handwritten signature in black ink, reading "John Timmerberg". The signature is fluid and cursive, with the first name "John" and last name "Timmerberg" clearly legible.
